**FIG.**

A cross-sectional view of a multi-layered structure 10. The structure consists of several layers. The top layer is labeled 11. Below it is a layer 111. A central layer 100 contains a wavy line 110 and a horizontal section 112. Below layer 100 is another layer 113. At the bottom of the main structure is a layer 101. A dashed circle 102 highlights a specific area. A layer 114 is shown at the very bottom. A horizontal line 20 is positioned below the main structure, with a small rectangular feature 2 on it. A label 'A' is placed near the bottom right of the main structure. An arrow points from the top right towards the structure.

Figure 1 is a cross-sectional view of a mechanical assembly. It shows a central vertical shaft (102) passing through a housing. The housing has a top flange (101) and a lower section (103). A component (113) is mounted on the shaft, and a curved part (114) is at the bottom of the shaft.
